### PROFILE

Experienced React JS Developer with over three years of experience in building user-friendly web applications. Proficient in front-end development, debugging, and optimizing code to make it work better. I want to use my knowledge and problem-solving skills to help your organization achieve great results.

---

### TECHNICAL SKILLS

HTML5, CSS, Tailwind CSS, Bootstrap CSS, JavaScript, React, React-hooks, Redux, TypeScript, Jest, React unit testing, RESTful APIs, Git, Bitbucket, Jira

---

### PROFESSIONAL EXPERIENCE

#### Frontend Developer (ReactJS) CJSS Technologies Pvt. Ltd.

📍 Hyderabad, 08/2022 – present

- Worked on the iShopChangi e-commerce website, improving the checkout process and payment methods to make shopping easy for users.
- Added features like product gallery updates and pricing changes, working with Back-end and AEM teams to ensure smooth and successful updates.
- Built and maintained ReactJS components that are reusable and easy to manage, ensuring good performance.
- Integrated and worked on APIs and used tools like Redux and Context API to manage data in a better and more organized way.
- Integrated Adobe Experience Platform web SDK for tracking user data, helping to improve analytics and business decisions.
- Found and fixed bugs in important parts of the website, like the cart and promotions logic, to keep things running smoothly.
- Code reviews with team members.

#### React.js Developer ERROR Technologies Pvt. Ltd.

📍 Hyderabad, 06/2021 – 08/2022

- Built simple and user-friendly web pages using ReactJS.
- Worked with designers to turn their designs into responsive and working web pages that look good on all devices.
- Wrote clear and easy-to-understand code for ReactJS projects to ensure high quality.
- Used tools like Redux and Context API to manage data in a better and more organized way.
- Tested the code with tools like Jest and fixed any issues to ensure the application worked well.
- Learned and used the latest frontend tools and methods to speed up the development process.
- Made the website load faster by following responsive design principles and using tools like Bootstrap for styling.
